

As of March 13, 2023,  **ParkMobile** will be utilized in the Century II parking lots east of the venue and south of the former library (see map below) for convenient, contactless payment. This change came as an effort to improve the overall experience of our guests, event planners, and vendors. Instead of needing to feed the meter, Century II visitors will pay one price to park for the whole day. The Car Park will be monitoring and enforcing these lots.

To pay for parking at locations using the mobile or web app, a user enters the lot's zone number or scans the QR code posted on signs around the parking spot, inputs their license plate number, adds their payment information, and touches the "Start Parking" button to begin the session. If guests do not have access to a smartphone, they can call 877-727-5973 or pay at the box office.

More information on how to use this service can be found at:
